

New York State Election  
Year 2006  
**DONALD  
SILBERGER  
FOR LIEUTENANT  
GOVERNOR  
AGAIN?...**

Why does this grizzled signpost in red suspenders accost strangers and neighbors alike, every two years, faithfully on cue in every statewide electoral season, begging for signatures on his ominously legalese petition form? He demands your residence address, no less! Who knows in what soiled hands the information might land?

All for what? Donald Silberger has to be crazy if he believes he'll get to be Lieutenant Governor or whatever other high office he's trying to run for this time. Why doesn't he run for some local office? He might actually be able to attain a post like that. Town Board or School Board, maybe. Board of Assessment. Planning Board. God knows. Could **reasoned coherence** lurk behind this old man's doomed campaigns?

All of Donald Silberger's campaigns have a simple intent: Donald Silberger wants you to notice that the Land of the Free locks behind bars a larger number of its citizens than any other country. **America incarcerates a larger percentage of its citizens than any other land.** It busily builds and staffs new prisons.

He senses something amiss where there is an immense prison population. **Our Gulag is his issue.** Isn't this worth some candidate's mention? Few other candidates even mention it.

**Nobody doubts Spitzer will become Governor via at least 60% of the total.** No single vote for either Spitzer or Faso can affect this electoral outcome.

But your vote for Clifton/Silberger **would** serve a serious purpose.

# **RE-LEGALIZE FREEDOM!**

The campaigns of  
**John Clifton for Governor**  
and of  
**Donald Silberger for Lieutenant Governor**  
are directed to citizens who concur that our  
country's huge incarcerations are disturbing,  
and that public apathy regarding this fact is  
more disturbing yet. Your November vote for  
the Libertarian slate of Clifton & Silberger  
add your personal weight to the issue of  
unreasonable imprisonments.

**As little as 1.4% of the vote** total for the  
Clifton/Silberger ticket will speak loudly to the  
question we wish to bruit. Our country as a  
burgeoning prison/police state will leap into the  
arena of public discourse.

With 1.4% – 50,000 votes – backing him, Silberger will no longer  
have to beg for signatures to get his cause out where people can vote  
on it. More truly distinct choices on the ballot cannot hurt democracy,  
can they? If you want to learn more about Donald Silberger then
